Profile

Master's student in Atmospheric Science at Fudan University with an undergraduate background in Ocean Technology and an exchange semester at the University of Helsinki. Interested in Earth system modelling, ocean and climate data analysis, and reproducible scientific computing. Experienced with programming, Linux command-line workflows, and version control.

Education

University of Helsinki Aug 2026 – Dec 2026
Exchange Studies in Environmental Change and Global Sustainability *Helsinki, Finland*

- Selected coursework includes Introduction to Sustainability Science, Forests and Climate Change, Urban Pollution, and Essential Tools for Language Technology.

Fudan University Sep 2025 – Present
Master's Student in Atmospheric Science *Shanghai, China*

- Relevant coursework includes Climate Change Science, Earth System Numerical Modelling, Land–Atmosphere Interaction, Data Assimilation, Pollution Meteorology, and Polar Climate Systems.

Tongji University Sep 2021 – Jun 2025
Bachelor's Degree in Ocean Technology *Shanghai, China*

- GPA: 4.53/5.00; average score: 90.33/100; ranked second in the major.
- Led two Shanghai Municipal Undergraduate Innovation and Entrepreneurship Training Program projects.

Projects

IOMB (part of ILAMB3) GitHub

- Worked on IOMB, the ocean benchmarking component of ILAMB3, which supports evaluation of ocean-related outputs from Earth system models.

Command-Line Course GitHub

- Completed practical exercises in Linux command-line tools, text processing, shell scripting, remote computing, Git, and software environments.
- Built and published a personal course website using Jekyll and GitHub Pages.

Technical Skills

Programming: Python, C, C++, JavaScript
Tools: Linux command line, Git, GitHub, Jekyll, LaTeX
English: CET-6 score: 619

Honours and Awards

- Tongji University Outstanding Scholarship, Third Prize (2023 and 2024).
- Hengtong Ocean Scholarship (2023).
- Team Second Prize, Shanghai University Student Sunshine Sports League (Bridge).

Interests

Basketball, tennis, fitness, and bridge.
